

Practices Need Treatment Plans Too

At Spark, we treat your business like you treat your patients. Every case is unique and with the right care plan, everything will become much simpler and you can get back to focusing on what matters most: seeing patients. Let us take care of billing insurance, hiring MAs, and practice management.

Who We Are

We know you could do it all, from caring for patients to running your own business, hiring and training your staff, communicating with insurance, creating a website, building a brand. But running a practice is a ton of work and we here at Spark Community Solutions know that you can provide significantly better care to patients than we can, so why not let us help you with our expertise in taking care of your practice?

Why Choose Us

Fully Customizable Plans

You know your practice best. During a free consultation we will listen to your needs and help optimize a package with only the services that you need.

Expertise and Experience

We come from a medical practice management background and know how to value your patients and time. You take the time to see your patients, let us talk to insurance companies.

We Share Your Vision and Passion

Where you want to spend your time seeing patients and providing the best medical care possible, our passion is caring for your business. From billing to virtual MA services to practice management, we will treat your practice like you treat your patients.
